

was a star basketball player at Middleton High School in Tampa. Ms. Manuel had such a love for basketball that she would often convince neighbors to set up lamps at night so she and her teammates could practice on the outdoor court near Middleton High. She attended the Tuskegee Institute, now Tuskegee University in Alabama, where she was affectionately nicknamed "Trick Shot" for her skill in basketball and in addition won multiple championships for the Tuskegee Track and Field team. In the summer before her senior year, Ms. Manuel made history by competing as a member of the U.S. Track and Field team at the 1948 Olympic Games in London. She competed in the Olympics at a time when sports were not widely considered open to women, let alone black women. She represented her country with dignity and grace, and upon returning home she and her team proudly celebrated their success with President Harry Truman at the White House.

After graduating from Tuskegee, Ms. Manuel moved back to Tampa to care for her ailing mother and began her 38 year career as a decorated teacher and coach. She was a legendary coach in Tampa. She led her teams to multiple state championships and was named the best coach in the Hillsborough County in 1975, and subsequently the best in the state of Florida in 1976. Ms. Manuel continued to garner countless honors and awards throughout her distinguished lifetime. Some of those honors include being inducted into the Tuskegee Institute Hall of Fame and City of Tampa Hall of Fame and being named one of the "100 Distinguished Women of Hillsborough County."

Ms. Manuel's importance to the African-American community in Florida and indeed all Floridians transcends even her many accomplishments in sport. Most importantly, she will always be remembered as a great leader and giant matriarchal figure to the thousands of students whose lives she touched. She was a champion in all facets of life. On November 21st, 2016, Ms. Manuel passed away at the age of 90 in Tampa, Florida.

Mr. Speaker, on behalf of the citizens of the Tampa Bay community, I am proud to honor Ms. Theresa A. Manuel for her lifelong service and inspirational life.

#### REMEMBERING DR. WARREN WARWICK

#### HON. TOM EMMER

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 6, 2016*

Mr. EMMER of Minnesota. Mr. Speaker, I rise today to pay tribute to the life and work of Dr. Warren Warwick.

As a Professor of Pediatrics at the University of Minnesota, Dr. Warwick was a pioneer in the advancement of care for cystic fibrosis patients. Dr. Warwick is often remembered for his work developing the first high frequency chest compression vest, but that was just part of his comprehensive approach to cystic fibrosis care that set the national benchmark for excellence in the treatment of cystic fibrosis.

Early in his career, Dr. Warwick founded the University of Minnesota Cystic Fibrosis Clinic where he served as director for nearly 40 years. Dr. Warwick was known for his compassion, kindness, ingenuity, and tireless commitment to the improvement of patient care.

Dr. Warwick's patients understood that he expected them to be active participants in the fight of their disease, and in turn his patients knew he would be right there, relentlessly fighting with them. It was a fight for which he committed his entire adult life.

Not long after joining the University of Minnesota faculty, Warwick set out, on behalf of the Cystic Fibrosis Foundation, to collect patient data from each of the 31 Cystic Fibrosis Care centers spread across the United States. Because of his work, the Cystic Fibrosis Foundation patient registry was created, which is the global gold standard in ongoing quality improvement through data sharing and collaboration in disease management today.

At the time of the Cystic Fibrosis registry's inception, cystic fibrosis patients routinely lived only into early childhood. Today, many live well beyond their fifties, thanks largely to the advancements in treatment only possible

through the patient registry and Dr. Warwick's unwavering commitment to discovery and excellence in patient care.

In addition to serving his patients, Dr. Warwick honorably served his country for over thirty years in the United States Army Reserves Medical Corps, retiring as a Colonel. Throughout, he enjoyed being with his family, and is remembered as a loving and supportive husband, brother, and father.

No single individual has more profoundly impacted or advanced the treatment of cystic fibrosis in our lifetime than Dr. Warren Warwick. His legacy—one of a passionate pursuit of excellence and dedicating his life to helping others—will live on.

#### TUESDAYS IN TEXAS: SAM RAYBURN

#### HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 6, 2016*

Mr. POE of Texas. Mr. Speaker, the name Sam Rayburn of Texas is well known to this House. It can be found identifying portraits and busts just outside this Chamber. It is the namesake of meeting rooms and offices throughout the Capitol complex. I, along with many of you, work in the Rayburn office building. I hold conferences in the Rayburn meeting room just across the hall. The name of Sam Rayburn is synonymous with statesmanship and devotion to public service at its finest. His importance to the tradition and legacy of this place can be summed up in the fact that at one time this chamber was referred to as "Sam's House."

Rayburn earned the admiration of even his rivals. Joe Martin, after losing the election for speaker to Sam Rayburn, said of his colleague "he is a man of great ability, of rare
